COMMITMENT 1 – Commitment to BCA Market Share

We will increase market penetration by 1% (a projected 58,600 businesses) and target at least 25% switchers by end 2022.

We have already met the market penetration target of 1% and are on track with switchers - we are currently accounting for around 15% of new members.

COMMITMENT 2 – Commitment to Remove Friction through Open Access

We will allow businesses to use their existing third party BCAs on our platform. We will offer

- a) light frictionless onboarding using open banking,
- b) only upgrade to full onboarding later when they source a KYCable product, e.g. a loan.

Businesses will be able to transact via our platform and we will provide advanced access to,

- c) expense management,
- d) invoicing,
- e) accounting,
- f) taxation features.

There will be no need to move their existing BCA. This removes friction leveraging Open Banking, thus reimagining competition. This commitment will be implemented in stages and completed by the end of 2022. We will target at least 100,000 BCA embedders.

On track. The first version of Open Access was soft-launched mid-November 2021, featuring cashflow prediction and credit products. We expect to have over 1,000 businesses connecting their non-Tide business bank accounts to take advantage of these features by December 2021. Open Access Invoicing is the next feature to be made available under Open Access.

COMMITMENT 3 – Commitment to provide unparalleled access to debt and equity

Funding needs are best addressed by matching SMEs with a broad choice of the best providers in the country. We will

- c) build out our proprietary lending by adding an overdraft product.

For more complex lending and equity solutions, CTBB will launch two managed networks:

- e) one for Angel and VC investors.

The commercial broker network will be live by end 2022, all other solutions during 2021. Partners will be added throughout the program. Excluding BBLS, we commit to £200m funding (cumulative flow of commitments) by end 2022 across intermediated and proprietary credit as well as the debt and equity managed services networks.

On track. Cumulative to date in Period 5, our network made £99.5m in funding commitments. Development for our overdraft proposition has been completed and is expected to be launched in H1 2022.
