Commitment 1: Offer automated payment reconciliation

Codat will build, test and release a new Sync API to enable the automatic synchronisation and reconciliation of transaction data from the payment service providers used by SMEs into their accounting platforms. We commit that new payment reconciliation products, powered by Codat, will enable at least 50,000 businesses to eliminate manual bookkeeping, reduce manual errors, streamline tax preparations, and build a high-quality financial data history within their accounting system (within 26 months of award).

We are on track to deliver this commitment by year-end 2023.
