In December 2022, we completed development of Mflow - enabling SMEs to link their bank account to their favourite cloud accounting platform and are rolling this out to customers throughout H1 2023.

The end-to-end payments and accounts receivable solution is on track for 2023.

- In 2024 we will offer a market-leading commercial credit card proposition, offering SMEs a full suite of customisable limits and controls.

Commitment 6 is on track.

We have launched new capabilities across foreign exchange, trade services, accepting direct debits and balance sweeping.

Our new Business Overdraft product is fully rolled out in Stores and on our Mobile app.

We launched a new digital credit platform in December 2021, allowing real time automated credit underwriting.

We remain focused on meeting the borrowing needs of our customers, which have changed significantly following the COVID pandemic and resulting Government lending schemes, in which Metro Bank has supported UK businesses. Prioritisation of Government lending schemes has impacted the pace of development on Small Business Loans and, with the change in customer needs and lessons taken from the deployment of Government lending schemes, we have taken the decision to change the way we deliver this product, utilising internal systems. This change of approach has led to delays with delivery, but we have made good progress in H1 2023 and expect to roll-out to customers in a phased way from Q4 2023.

We launched our Revolving Credit Facility product in April 2022, helping larger, more complex businesses better manage cash flow peaks and troughs during this period of wider economic uncertainty.

MCard delivery was delayed due to delays starting the project, following competing priorities of the extension to government lending schemes, small business loans and business overdrafts. However good progress in H1 2023 now means we are on track to launch to customers in a phased way from Q4 2023.

COMMITMENT 7: WE WILL HELP 8+ INNOVATIVE UK SMEs SCALE BY PARTNERING WITH THEM TO DELIVER OUR BID COMMITMENTS

- In delivering our bid commitments we will partner with 8+ UK SMEs, helping them scale next-generation innovations for business banking customers.

- **This will expand the addressable market for these companies by more than 238,000 SMEs by 2025.**

Commitment 7 is on track

To date, we have partnered with six UK SMEs.

Investing £70M from the Capability and Innovation Fund will enable Metro Bank to win an additional 70,000 SME BCA customers by 2025, based on Frontier Economics' calculations. This equates to a 1.2 percentage point move in market share of stock. When combined with our 'business as usual' growth plans, Metro Bank will become an at-scale challenger with a 4.2% BCA market share of stock by 2025, serving more than 238,000 customers.

We are on track to meet the BCA volume commitment by 2025.

We continue to make good progress with the new Business Account Online opening process, which has seen over 20k SMEs opening Metro Bank business accounts through this channel since we launched.

We also had a strong H1 2023 in stores, with businesses valuing our SME proposition - stores open 7 days a week, early till late, and personal service provided through Local Business Managers, whilst also offering a full suite of digital tools to help SMEs.
